AWARDED \$65,000 FOR INJURIES

MISS CATHERINE HARTLEY.

Serum Rushed to Hospital.

Dr. Raymond L. Ditmars, curator of mammals and reptiles at the Bronz zoo, had rushed serum to him at the Good Samaritan hospital in Suffern, N. Y.

Snyder, who was 57, died about 24 hours after the two poison fangs had sunk into the back of his left hand. It took him five hours to reach the hospital, a delay which was held responsible for his death, although even after such a lapse of time the failure of the serum to counteract the poison was considered unusual.

There was no trepidation in Snyder's mind as he struck into the Ramapo woods on Sunday, accompanied by Paul Snyder, a friend and smake enthusiast.

Pick Up Snake Trails.

They were on Little Tor mountain, pursuing separate trails 190 yards apart, when Snyder saw a rattler between four and five feet long gilding over a rock ledge near his feet.

Delivery

The poultry market is highest during fall and winter. All homes ordered now will be ready in time. Pullets will be delivered in September and will start laying in early October. With our co-operative marketing and feed buying you should earn enough money in your spare time to meet your low monthly payments.

TRAIN X-RAY ON DIGGERS TO HALT DIAMOND THEFTS

SUDBURY TABLE DESK

TI is difficult to find a small table deak of the right proportions for home use. The Sudbury Table Desk is an enlarged form of the old time knee-hole deak. It is made of beautifully figured San Domingo Mahogany, with curved front inlaid with delicate bands of marquetry. The feet are a type of bracket commonly found in Eighteenth Century Connecticus

Across the full length of the back of the desk is a book shelf so that this piece can stand out in the room and make an unusual contribution to the entire decorative effect. Naturally the joinery is in keeping with the dignity of the piece—hand dovetailed joints in the drawers and laminated stock in the tope and ends. Visit our showrooms and see this unusual desk-with a lovely collection of individual pieces and related groups for every room in the home.

Suits of Oxford Gray Having a Semi-Formal Manner

The perfect manner in which they conform to the moods of diverse occasions, has won decided favor for these Walter Morton silk lined suits of sightly oxford gray. The semi-body-tracing sack coats have a smartness of line and graceful manner of drape that could only result from

hand-needling of neat fingered artisans.

EIGHTY-FIVE DOLLARS

EXCLUSIVE REPRESENTATIVES FOR DOBBS HATS IN CHICAGO

If you expect your staff to produce brilliant plans or keen and original ideas . . . take them out from under the stifling blanket of noise.

Initiative and originality may sprout but they seldom flourish in noisy offices.

Razor-edged minds grow dull. Quick minds grow slow. Inventive minds go stale. And the everlasting clacking rattle of noisy typewriters, keying the entire office to turmoil, pulls down the pace of the very men who carry the business on their shoulders.

The REMINGTON NOISELESS Typewriter keys your office to the modern note of quiet. It does everything any typewriter will do ???' faster, clearer, and silently. It has a 4-row standard keyboard, with a delicate, feathery

Best of all, it protects your investments in your personnel. Young heads in the "outer offices" begin to turn in usable suggestions. Secre-

taries and stenographers keep fresh to the end of the day. You prove, by increased output and a lessened sick-list, that noise is a liability and silence is an asset. And out of this silence comes the really valuable contributions that every executive is waiting forreasoned, planned and perfected in quiet ... within a few feet of a battery of REMINGTON Noiseless Typewriters!

Let us make a free demonstration in your office. Write or phone REMINGTON RAND BUSINESS SERVICE Inc., Typewriter Division, 214 West Monrye Street, Telephone Contral 8750.

It takes the Bedlam out of Business;

PROJECTS LAC

Officials Say City Has Not Submitted Plans.

\$2009

Hundred Words

\$500 in cash prizes including a first prize of \$200 will be paid for the best 19 letters of approximately 200 words about the Harris Trust Savings and Life Insurance Plan. Anyone, except employees or nembers of their families, is eligible to receive these cash prizes.

We are convinced that there is no better plan on which to build toward financial independence. We want the opinion of the man or woman who will study the plan or those who have already enjoyed its benefits.

The plan is flexible enough to suit the purpose of anyone whether his earnings are large or small. And it combines insurance with sound investment and saving in such a way as to make it suitable for a wide variety of purposes.

The plan has already met with a full measure of success.

The winning letters will be selected by a committee appointed by officers of the Bank. Prizes will be distributed at follows: 1st prize \$200, 2nd prize \$100, 3rd vrize \$50, 4th prize \$35, 5th prize \$20, 6th to 1th prizes \$10 each, 11th to 19th prizes \$5 each.

Letters must arrive before midnight of June 15th.

For additional information write or telephone

An Open Letter

Addressed to 78,659 Chicago Families:

Where Will You Live October 1st?

YOU are going to move October 1st—but where? You're living now in an apartment, a hotel, or perhaps a rented house. Every month you're paying some one for the privilege of living on his property. What are you saving? Cancelled checks or rent receipts? If so, try to cash them! How long are you going to keep this up? Don't you think it's time to stop?

Don't you think it's time to plan your own home? Give your children the freedom, the joy, and the health of good surroundings—with the right playmates. Give yourself the stability of home-ownership and the advantage of the money you are

hip, you need so cash. If you own an's will build for you-complete. plete to the last detail of equipment and furnishing, if you wish. No extras. Convenient monthly payments—probably as low as the rent you now pay—cover everything. And Hartman's \$21,000,000 resources guarantee satisfaction.

ACT NOW, so your home may be ready October 1st. Visit the "Heritage" Home-Building Exhibit at Hartman's Loop Store, Adams and Wabash. Or mail the convenient coupon, for further infor-

Frocks of the Spring Season In a Special Sale At Reduced Prices

In the Moderate Price Frock Section

The styles that have been important in the Spring sellings are unusually fine values in a sale of this kind. Incomplete size and color ranges have prompted us to offer this large and varied group at one special price, and we have included an in-teresting variety of frocks for almost every need and purpose, of which the five sketched are indicative.

\$12.50

Silk crepes, satin crepes, cloth, chiffon, prints are important among the materials. Ensembles, onepiece, two-piece frocks dominate the styles. The sizes included are from 14 years to "44." Not every style and color, however, in every size.

HOUSEKEEPING MADE EASY.—You'd smile too if you owned the magic box that is in the kitchen of this happy couple. Of course it's an Electrolux—the refrigerator that you never have to do anything about. Start it going and you get ice for life as simply and surely as you get water from a faucet. You'll never know an Electrolux is around, never know it is operating, until you open the door and feel the crisp frosty cold. There is absolutely no machinery, not the slightest wear, vibration or sound in the Gas Refrigerator.

... Prices \$210 to \$510 f. o. b. Evansville, Ind.

SO THAT YOUR REFRIGERATOR MAY LAST.—Picture shows a white-hot ingot of Armco Ingot Iron, the rust-resisting metal. This metal costs more than ordinary steel, but is used in Electrolux Refrigerators because it lasts longer and takes porcelain enamel better. Only the very finest materials go into an Electrolux, because the entire refrigerator must be worthy of a freezing unit that is practically everlasting.

MAKING ICE FROM HEAT.-

flame at the bottom; dry frosty cold a the top. In between nothing but a serie of steel tubes, welded into one solid con

HE SEES GOOD NEWS FOR YOU.—Your gas meter tells a welcome story about the operating cost of Electrolux. The total monthly cost (including water) is unbelievably low. It varies somewhat from city to city according to the local rate, but is usually far under the cost of any other system of refrigeration.

... Write for further details.

The True Story of America's Golden Age

About twenty years ago, there was a small group of what were then opprobriously known as America's long-haired men and short-haired women who were fighting for a set of ideals which even to them might only be obtained in some distant millennium.

One of these ideals was that labor should have leisure to enjoy life. Some wag referred to this as the ideal of the "leisure-labor" class, and the clever alliteration made a nation laugh.

Another of these ideals was that capital and abor should cease to war upon each other. And that capital should voluntarily give to labor a goodly part of its earnings.

And this, of course, was a sort of Socialism.

Thousands of the early personal human documents that found their way into the pages of True Story Magazine in those days revolve about the bitterness of the capital-labor war and the hopelessness of such futile ideals.

Tens of thousands of such stories began with the first sentence, "We were very poor." And "We had to time."

Time and money, time and money—or rather the lack of them—ran like a fugue through all of these thousands upon thousands of manuscripts.

It must be remembered—and perhaps it should have been stated earlier for the sake of clarity—that True Story Magazine was not then, and never has been what might be called an "edited" publication. It merely took the great mass of personal experiences which must find their outlet somehow, somewhere, and printed them as great human documents.

And they were great human documents—let there be no misunderstanding about that. Wherever you have any personal expression from a cross-section of hundreds of thousands of individuals, you have a great human composite that is telling the story of its age more clearly than any historian could ever do. For self-expression is always true expression when you let it alone.

e time

TRUBUNE

One story may be about sex and one about money. Another about chastity and another about divorce. But when you lay them out together at the end of any period, as any good sociologist would do, and then look underneath them for the impelling motive—the factor that caused the story, you get a picture of the true conditions of the time that could not be written in any other way.

And the great underlying motives of that period were lack of time and lack of money.

Then came America's great discovery.

The post-war period had come. Factories were going into production as they had never done before and the comparative handful of rich people could no more consume their output than a river could swallow an ocean on a tidal wave.

No millionaire could wear ten thousand pairs of shoes, nor drive a hundred or a thousand automobiles—nor use ten thousand washing or talking machines in his home—nor, in fact, find place for any of the multiple thousands of necessities and conveniences that American factories were grinding out, when this madcap nation hit into its production phase. One eccentric millionaire did buy a thousand pairs of socks and the story made the front page all over America.

Then somebody discovered the key to the first door-more money for labor-more money for labor in order that labor might spend more money.

Who thought of it first nobody will ever know. Henry Ford was one of the first to apply it. And with hardly more than a word of remonstrance from his own competitors, the idea began to creep unnoticed over the land.

Then the key was found to the second door—the key of leisure for the same worker. For the man who worked too long at his job did not have either the energy or the desire to go out and buy any of the extras of life which his extra money had provided for. Bodies that were too weary wanted neither fine clothes, nor travel, nor amusement, nor thrills. All they wanted was sleep.

And just as this new feeling of leisure and money for the sake of production crept over the land, so the thousands of human documents that came into True Story Magazine reflected this remendous change in human affairs as a perfect mirror reflected the perfect image of the thing it confronts.

True? So true and so truly that all the historian from Thucydides to Wells could not have recorded this epic theme so perfectly.

But American business was to go even farther in its madcap career. It was actually to begin dividing its very profits with its hired help and making the man at the lathe a brother stockholder with the man in the front office.

And that is another spread of human documents that finds its way into True Story Magazine. Here for the first time in history we have a new tore so thrilling in the great diapason of life that it seems almost like a new and fundamental note in human affairs.

But that must be the theme of another page.

The corn belt is the feeding belt. An increase in the margin between the cost of feeders and the price of beef animals will mean greater profit. A tariff on hides and leather which will limit the importation of these articles from abroad will also benefit our farmers by increasing the price of cattle.

Our farmers are also justified in asking an indicrease in the schedules on casein, butter and other dairy products. Dairying is an industry of first lamportance in many sections of the central states. Farmers throughout the section have been urged to diversify their crops. A higher rate of profit on dairy products will encourage this movement.

The proposal to increase the duties on blackstrap molasses, used in the manufacture of alcohol, is also sound from the point of view of central states agriculture, for blackstrap competes with our own grain in the manufacture of alcohol. The demand for ampler protection of finxseed is in the interest, particularly, of the farmers in the northwestern section of the Missisfinxseed is in the interest, particularly, of the farmers in the northwestern section of the Mississippi valley. The tariff schedules in all the items here mentioned should be revised to increase the incomes and the purchasing power of our farmers.

MR. MITCHELL TURNS DOWN

SENSITIVE teeth and tender, bleeding gums are often caused by acids at The Danger Line the tiny V-shaped crevices where teeth meet gums. Food particles lodge in these crevices. They ferment and form acids which attack the teeth.

You can prevent this by using Squibb's Dental Cream, made with more than 50% of Squibb's Milk of Magnesia. It neutralizes fully all the acids at The Danger Line.

Squibb's Dental Cream cleans beautifully. It is ideal for use by children-in tender mouths-on the gums. It is harmless if swallowed. 40c a large tube.

An Official Word of Praise

CHICAGO Surface Lines trainmen, 6,433 of whom operated their cars last year without a single accident, are highly commended by Dr. Herman N. Bundesen, Coroner of Cook County and for years Health Commissioner of Chicago, in an unsolicited letter just received by the management.

Commenting on the marked reductions in many classes of accidents on the system and the fact that there were fewer fatalities in which street cars were involved last year than for any year in the history of the Surface Lines, Dr. Bundesen says in his letter to President Blair:

It was with great pleasure and satisfaction that I read your statement which appeared in a recent issue of a morning paper, and I wish to take this means of congratulating all of the trainmen in your employ on the magnificent record they have made.

As Coroner, I am vitally interested in the saving of human lives, and I feel that the record of the Chicago Surface Lines is worthy of

Too often are we prone to criticize, but seldom do we take the time to compliment those who are doing good work in the performance of their daily tasks. For that reason, therefore, I have written this letter. With kind regards, I am,

Very truly yours,

(Signed) HERMAN N. BUNDESEN, Coroner.

This again calls attention to the fact that the safest place in the streets is on the street car.

And in performance-Pontiac owners ask no favors of any other car in its field

Six hesitates to pit his Pontiac against any other low-priced car on the road for power, speed and pick-up. Pontiac owners know that the car was created for the kind of people who demand spirited performance as well as beauty and luxury. And their own experience has taught them that in a New Pontiac Big Six they need ask no favors of any other car in its field.

It is only natural that this should be so. For mechanically, as in appearance, the New Pontiac Big Six has the characteristics of a

big car. It has a big, L-head engine with a 53-pound crank-shaft, counter-weighted to reduce bearing pressure at high speed. It has the Har-monic Balancer to counteract crankshaft vibration. It has a 114-inch carburetor with an

No owner of a New Pontiac Big accelerating pump to give it higher speed, faster pick-up and greater power. It has the thermostatically-controlled cross-flow radiator to keep its engine operating at peak efficiency at all times. And, to make high speed operation safe, it has noiseless, internal-expanding four-wheel brakes of a type found on no other car listing for less than eleven hundred dollars

> Our special demonstration of the New Pontiac Big Six will show you how its owners step out in performance as readily as they step up in quality and style. Come in for this demonstration. Let us prove that you

can enjoy many big car advantages without paying a big

with all

Everywhere you see scenes like this

NEW house under construction; half a dozen cars in front of it. Or a factory working to capacity with a hundred, or five hundred cars around it.

Who own these cars? American workers.

How have they been purchased? Many of them as "used cars," through the convenient GMAC Plan. The world goes forward in proportion as its workers' can make effective use of their time. The used car has made it possible for millions of men and women to increase their incomes and improve their living by applying their time more effectively.

3 out of 5 buy used cars

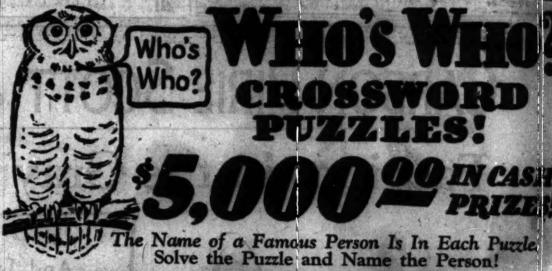

Of the cars you see on the road today, three out of five have been purchased by their owners as "used cars." Many of them are serving as "second cars" for a family which needs two or more cars to meet the requirements of all its members.

Many others are affording satisfactory transportation to families who otherwise would be denied automobile ownership.

The cars which General Motors dealers are taking in trade offer real opportunities in unused transportation at low cost. They present a wide choice of body types and styles; and for convenience in purchase, General Motors extends the GMAC

a Monument to an IDEAL

IF you will look up as you pass the corner of see a towering monument to an ideal. A structure that will ever symbolize the spirit of the open door.

If you will look back in Chicago's history 67 years-you will find a record of the begin ning of this institution-soon to be housed within this massive new building.

Our ideal of 67 years ago is our ideal of today. It has never varied. We have grown in these years from a modest banking house to one of the largest banking institutions ever built with out the aid of consolidation. A record made pos-sible through adherence to one great fundamental: a bank, to prosper, must be "of the people." It must bend its energies and devote its men, minds and resources to the service of the people.

Thus-you find no closed doors within this institution. Our officers are available without ceremony to all who want their advice and counsel. And whether your problem is one that involves hundreds or millions of dollars, you will find the same courtesy ... the same warm

friendliness...the same willingness to serve. Thus-we attribute our success to the strength and the soundness of an ideal.

In the past twenty years our resources have grown from less than 10 millions to more than 125 millions without the aid of consolidation.

The state of the s Mine day, that the other

Tender SPRING CHICKEN Maryland

BROADWAY

"Maryland-my Maryland! . . .

A sizzling but noble me to a sovereign state! . . . A tasty, young chicken, salted and peppered, rolled in flour, breaded, done to a golden brown in butter—until it's as melting-sweet and tender as a sentimental song.

And served in royal style—a half-chicken to a person—with rich cream sauce, a tasty corn fritter, a slice of crisp

bacon, a potato croquette. Nothing but the best goes into Pennsylvania dishes. Every item on the menu is carefully selected and expertly prepared. And this Spring Chicken Maryland is a real chef d'oeuvre. Try it this week on Pennsylvania dining cars. You'll find it fits the mood of Spring—of your own Spring mood—as you sit at ease in the bright and airy diner.

One moderate charge includes every item for a funeral

There are no expensive extras in a Skeeles-Rockefeller funeral. The complete service is brought to you, whatever the requirements, for one moderate charge. This plan has made it possible for a family in even modest circumstances to provide an enduring metal casket and a dignified chapel service . . . because the complete charge, which includes every item for the funeral, is exceptionally low. For sixty years, Skeeles-Rockefeller has given dependable, conscientious service to the people of Chicago.

You Need Money?

THOUSANDS of families are worrying over accumulated bills, or the expense

of necessary medical attention. Thousands

more are worrying over the fact that, because of pressing obligations, they can-

Rate Reduced

Nearly One-Third

The Household Small Loan Company has recently reduced its rate nearly one-third. Coupled with our friendly, confidential service, this saving is an added inducement for dealing with this reliable company.

Borrow \$50 to \$300 Here's the Plan

We will lend you the money you need—from \$50 to \$300—on terms to fit your income and you may take twenty months to repay, if you wish. Loans are made to families, and no outside signers are required. Our new rate, which is considerably lower, offers substantial savings to our customers.

Under this new rate, the average monthly cost on a \$100 loan is only \$1.32 when loan is paid in twenty equal monthly payments. On a \$200 loan it is only \$2.63, and on a \$300 loan it is \$3.94.

Thus you can borrow \$100 today and repay only \$5 per month, plus interest. The first month the interest would be \$2.50, but as the loan is paid, the interest charge reduces until the last month, when it would be only 13 cents. The average cost is \$1.32 per month.

Will Try to Wind Up Parley This Week.

PARIS, May 12.—Aroused by the persistent rumors that the German and the British delegations to the reparations revision conference are stalling along until after the British general election on May 20 before reaching a decision, the American delegation today announced its determination to wind up the parley by the end of the week. The Americans propose to force acceptance or rejection of Owen D. Young's compromise and the reservations of Dr. Hjalmar Schacht.

Sir Josiah Stamp tonight had practically completed the report containing the various proposals and the conditional acceptances, and tomorrow Dr. Schacht will have the opportunity to examine it. A plenary session is planned for Wednesday.

will be ready to discuss the report immediately, as they are fully informed of the contents, and the Americans will oppose any suggestion of a recess over the week-end.

day, leaving the final whipping of the definitive conclusions into shape to the other experts.

If no agreement is reached the report will be submitted to the various

•

ORATORY GUSHES AS BRITISH VOTE RACE GETS HOT

Speakers of All Parties
Appeal to People.

BY JOHN STEELE.
[Chicago Tribuna Press Service.]
LONDON, May 13.—A gushing flood
of political oratory was loosened today
with party speakers pouring out hundreds of fervent speeches in every part
of the country. For the next fortnight
the voters will be darlings of the gods
and if they do not know all there is
to know about British politics by that
time it will not be the fault of political
banders and candidates, in the general

Prime Minister Stanley Baldwin opened his election tour in the west of England, visiting Truro, Liskeard and Plymouth, and addressing large crowds despite a heavy rain. At Plymouth, the Sutton division, which is Lady Astor's constituency, the prime minister touched upon disarmament, declaring that Great Britain led the way in disarmament, the British fleet now being half the size of what it was in

My own hope is that the new govment may be able to conclude an reement with the United States alch will lift the whole problem of armament to a new plane—a plane

of action, not talk," he said.

Bir Austen Chamberlain, foreign secretary, addressing his first meeting
after his adoption as unionist candidate for West Birmingham, also referred to America, remarking that
during the last year "We have welcomed the entry of the United Statesonce again into world politics and on
the side of world peace."

Both the labor and liberal leaders. Ramsay MacDonald and David Lloyd George, attacked the government's action Saturday of publishing a white paper on liberal unemployment proposals. Mr. Lloyd George declared this step was unprecedented, unwarranted and thoroughly discreditable. He said the conservatives were issuing a "political pamphlet" as a government document.

Liminate Prohibition issue.

LONDON, May 13.—Prime Minister Baldwin, Ramsay MacDonald, and David Lioyd George, leaders of the three parties now fighting to win a majority in the new British parliament, have agreed to instruct all candidates to ignore questionnaires from national propaganda groups of any other agencies outside their several constituencies. This joint action of the party leaders ends the possibility of prohibition entering this campaign even as an artificial issue. In other words, none of the nearly 1,800 tory, liberal and socialist candiates for parliament will be obliged to stake their chances for electoral support on the answer he might given or refuse to give as to his dryness or wetness.

Gifts a Bride Might Select for Herself

Mandel's calls the attention of the bride to the Mandel Co-operative Plan . . . enabling her to make purchases of \$50 or more, in any home furnishing department . . . and take a whole year to pay.

From All the World

From Sweden, from Germany, from Italy and France come the bridal gifts assembled in the Foreign Shops. Many are only one-of-a-kind—without a duplicate.

In the sketch—a Beverage Set of German pottery unusual pitcher and six unique handled mugs in rich red-orange. Priced, \$16.50.

Other Suggestions:

Swedish crystal pieces are cut like old Waterford glass.

Steuben glass is finely reeded in black, rose or green.

Lamps for boudoir or living room have modern designs.

Signed Holland pottery by Jan Van Ham is unusual.

Mandel's Foreign Shope—Ninth Floor.

The Gift of Fine China

95 \$135 pieces, \$135

Bavarian china, with gold encrustation and border of ivory—a gift to delight her for years to come. Complete service for twelve, \$135.

Service Plates, that harmonize, \$5 each.

18-Piece Glass Set

Service \$5.75

exquisite blown glass for her summer luncheon table, combines box is and stems of delicate rule, with bases of deep amethyst. Service for six, including goblets, sherbets, salad plates. \$5.75.

Mandel's-Seventh Floor—Madison.

Electrical Gift Ideas

New Type \$6.75 Waffle Mould,

Attractively designed waffle mould with handle in choice of green, blue, or black.

Special Thermax
Turn-Easy Toaster, \$4.50

7-cup Percolator for \$6.95

Breakfast Tables, 6-Pound Universal \$3.95

Electric Iron, \$3.95

The Welcome Gift of Fine Furniture

Your Gift . . . will it bring real and lasting satisfaction? When the gift is furniture, the answer is "Yes." A chair, deep and comfortable . . . a desk . . . a coffee table . . . these the bride would approve. So, also, she would approve the pieces sketched . . . chosen especially for the bride.

Mandal's—Tenth Ploor.

Gulistan Rug for Her Living Room

Copies of Orientals *150

9x12 Room Size

The domestic rug that looks like an Oriental—what gift more beautiful or more practical? \$150.

Hartmann Trunk

For going away, she must have a Hartmann wardrobe trunk. Two shades of brown; all Hartmann features of durability. Traveling cases, too, and other trunks, for your choice—and hers.

Mandeta-Second Proof—Fabrah.

Mandete-Second Floor—Faban.

Give Oil Paintings

Prices Range from \$12.50 to \$250

No gift will delight her more than an oil painting carefully selected from this new collection of lovely pieces.

> Portraits of Before the Civil War

Genuine portraits, dating about 75 years ago, are included, their gentle charm lending an air of dignity to an Early American interior.

Modern Pieces of Great Effectiveness

Such well-known artists as Vilas, Bothe, Elnik, Riccardo and Bertini have paintings in this group. Prominent are a number of floral pieces showing fine color composition.

This Lamp of Pottery

\$12.50
Complete
Simply designed pottery base
of generous size, and large
parchment shade, with quaint

prints, make a lamp for her iving room that she will approve. Base in soft tones of red, green, buff or tan.

Trees of Crystal '5

For her table, one of these crystal trees, in delicate pastel shades, will create a renter of interest. A gift she will love.

Bedspread in Color \$2.95

Gay prints and quaint chintz patterns — bedspreads for her home, in shades of green, rose, orchid, gold or blue —single or double bed size.

Colored Border \$4.50 Sheets, Set,

Sheet, double bed size, and two cases—white with borders of green, peach, orchid, pink, gold or blue. 2 sheets, 2 cases, for twin beds, \$6.50.

FEED BOX DOPE. OUISVILLE, Ky. May 13.—[Special.]—Although it rained nearly all night and was still pouring this morning, the Wake, with mendable fidelity to duty, journed out to Churchill Downs stables

encountered Clyde Van Dusen, the good little son of Man o' War. Clyde, encased in a blue lounging robe of bath material, still was nibbling at his breakfast, which had consisted of grapefruit, rolled oats, carrots, toasted English muffins, and a pot of tea. Looking up, he said: "Hello, Wake; why, I haven't seen you since last summer in Chicago. Didn't you think enough of me," he queried playfully, "to come down to the Kentucky Jockey club stakes last fall? Well, I

La Palina is America's Largest Selling High Grade Cigar (OVER A MILLION A DAY). Its outstanding popularity is the best proof of its unusual quality.

MEN WHO SMOKE AND GUARD THEIR HEALTH, SMOKE CIGARS

"-THE MAN WHO SMOKES CIGARS IS NOT

INCLINED TO BE TROUBLED BY

THOSE DISORDERS RESULTING

FROM OVERSTRUNG NERVES"-

says World Famous French Specialist

DOCTOR TH. LEMASSON-DELALANDE

Member of the Advisory Board of the

Syndicat des Medicins de la Seine

IGAR smoke has no bad effect upon CIGAR smoke has no bad effect upon the nerves, because the cigar is made only of the purest and finest of tobaccos—cured by wind and sun—needing no flavoring or curing with any foreign substances to make them smokeable. It is such substances, apparently harmless adulterants, that produce, when smoked in chemical union with tobacco. tobacco, two irritants known as Fur-fural and Acrolein. These, when inhaled into the lungs, are the main cause of nerve irritation, decreased vitality, and other complaints which doctors ascribe to the smoking of tobaccos other than the cigar.

Since the cigar contains no adulter-ants of any kind, its smoke cannot pro-duce these irritants. Therefore, it has no destructive action upon the nerves. In consequence, the cigar smoker is free from any slavish craving.

Nor need cigars be inhaled. The full, rich flavor of the cigar, its natural fragrance, are wholly satisfying to the

taste. Experience proves that few cigar smokers ever inhale.

Then too, cigar smoke is cool. Its tobacco burns slowly and is further cooled and filtered as it is drawn through the body of the cigar, and because no quick-burning substance is used for wrapper.

Why not try cigars exclusively-for one full week. You'll feel much better, with no cough or throat irritation, improved nerves, increased virality and less of that tired feeling.

To really test cigars, with justice to yourself and to cigars, we suggest the test be made with La Palinas. Since they are America's largest selling high

grade cigar—over a million a day—you can smoke them confident that they will please you.

The sensational success of La Palina

results from an exclusive and secret blend which combines for the first time in one cigar an extreme mildness with a rare richness of both taste and fra-

Dear Henry

HANKS for your check. bet I must admit I had my own doubts about the Atlanta plant panning out. The figures looked too good, even when the engineers got through with them.

For one thing, I didn't believe labor could work the way these boys do down here. We certainly couldn't get the production per man in the old town-and'I know you don't get it at your plant. Say what you please about melting pots, the good old Anglo-Saxon race sure knows how to give work for wages.

You'd drop dead if I showed you how much we saved in production costs last year. Our raw stock comes from about fifty miles away, most of it, and costs less in the first place. I'm paying a lot less for power. My tax bill dropped away down. And I saved 29% in building my plant because you have very little winter to figure on here, and building costs are lower anyway.

But the best thing of all was the response we got from the trade. We've ways thought we were getting our fair share of Southern business, so we were all startled by the gains we made in this territory. The trade down here is buying hand-to-mouth the same as they are everywhere, and our customers were simply sending most of their business to folks with local stocks. When we were able to serve them out of the Atlanta plant.

they bought ... that's the whole story. It pulled up our volume from the South 43.9% the first year.

And talk about service to your trade, Henry! This town has fifteen main railroad lines. I figured the rail time to my principal cities from here, and from each of those cities to each of the others, and the average in favor of Atlanta is hours quicker. What's more, I can set a rush order down in New York, Chicago, St. Louis and intermediate points, in a few hours by air mail from here, because Atlanta is the Southern air hub as it always has been the railroad center.

The only fly in the cintment is that you and Anne aren't down here, too. Coming home after a session of golf a couple of months ago (yes, just about the time you were fighting snowdrifts!) I got the notion to look into the figures on your business. The Industrial Bureau made a little survey* for me, and I had Joe-you

remember Joe, my production wisard?-check them over, so I know they're right. And I'm sending them to you, along with an airplane picture of a site that was just made for your plant.

Helen says she's writing Anne about the fine folks in this town, and the bully crowd of friends we've gathered since we came, in the hope that she'll talk you into getting out of the old town. We both feel that running a plant here, with conditions what they are, will take about ten years off your age, and a dozen wrinkles off that noble brow of yours.

Anyhow, throw a toothbrush in your bag, you and Anne, and come down for a visit. We'll show you some swell golf (I'm getting good, playing all year, so brush up!), some swell times and how to make a lot more money with a lot less grief.

Yours as ever,

U.S. Per Capita Consumption of Manufactured ICE

Why the "Cold Products" Companies are Prospering - an Old Industry Starting to Grow

FEW basic industries in America show such a remarkable growth in business and such a promising outlook as the "cold products" group, which includes ice manufacture and storage, ice cream, dairy products and cold storage.

Not only has the per capita consumption of manufactured ice grown 325% in 24 years, as shown above, but total consumption has increased over 500% in the same period, while population has increased only about 46%. The wide and growing use of manufactured ice is partly a cause and partly a result of modern ways of living in cities and towns. Nowadays ice is a public necessity.

By their nature the cold products businesses are By their nature the cold products businesses are particularly suitable to group operation and management. The Consolidated Service Company is an outstanding example of success in this field. It serves a section where demand for cold products is heavy, where business and population are growing rapidly, and where the public attitude is especially favorable. We recommend the stocks of this Company.

A 36-page illustrated booklet containing an interesting account of this group of industries and of the Company's properties will be sent you on request.

No obligation. Ask for Booklet G-2.

111 WEST MONROE STREET, CHICAGO - TELEPHONE CENTRAL 6702

\$3,500,000 Missouri-Illinois Railroad Company First Mortgage 5% Bonds, Series A

To be dated January 1, 1929

To mature January 1, 1959

Legal investment, in the opinion of counsel, for life insurance companies in New York, Pennsylvania, New Jersey and Connecticut

agreed to make application in due course to list these bonds on the New York Stock Exc

e following information has been summarized by Mr. Clinton H. Crane, President of Missouri-Illinois Railroad apparay, from his letter dated May 8, 1929, copies of which may be obtained upon request, and is subject to the more splete information contained therein:

Missouri-Illinois Railroad Company, organized under the laws of Missouri in 1921 to acquire the lines of railroad theretofore owned by The Illinois Southern Railway Company, has contracted to acquire substantially all of the capital stock of Mississippi River and Bonne Terre Railway, and to lease all the property of the latter company for a period of 99 years from January 1, 1929. Missouri-Illinois Railroad Company, upon such acquisition and lease, will operate about 202 miles of railroad together with about 65 miles of yard tracks and sidings, all owned directly by the company or the lessor company with the exception of about 3 miles operated under trackage agreements. Both of these railroads serve primarily the lead mining and refining companies located in the Flat River and Bonne Terre lead districts of Missouri and have connections with a number of well-known railway systems, the most important of these connections being with the Missouri Pacific Railroad Company system. THE COMPANY

MISSOURI PACIFIC RAILROAD COMPANY CONTROL.

As a part of the general plan of unification described above, Missouri Pacific Railroad Company, by agreement, is to acquire control of Missouri-Illinois Railroad Company through the purchase of 51% of its outstanding capital stock, and is to have an option to purchase the remaining 49% at any time prior to January 1, 1959.

PURPOSE OF ISSUE The proceeds from the sale of these Series A bonds are to be used by the company to acquire substantially all of the capital stock of Mississippi River and Bonne Terre Railway.

The First Mortgage 5% Bonds, Series A, will constitute, upon issuance, the only funded debt of the company (the lessor company having no funded debt), and will be secured, in the opinion of counsel, by first mortgage lien on the lines of railroad and other fixed property and equipment now owned and by a direct lien on property of the same character hereafter acquired by the company; by pledge of 29,992 shares of the outstanding 30,000 shares of capital stock (\$100 par value a share) of Mississippi River and Bonne Terre Railway; and by pledge of lease terminating 2028, of the Mississippi River and Bonne Terre Railway.

The value of the physical properties of Missouri-Illinois Railroad Company as taken up on the books of that company at the time of its organization in 1921, and of Mississippi River and Bonne Terre Railway as determined by the Interstate Commerce Commission on June 30, 1914, in each case plus additions and betterments at cost less retirements and depreciation to December 31, 1928, amounted to \$3,491,249 and \$2,870.516 respectively.

\$2,870,516 respectively.

Based upon statements submitted to the Interstate Commerce Commission, combined net income available for interest on funded debt, before Federal income taxes, of Missouri-Illinois Railroad Company and Mississippi River and Bonne Terre Railway, for the six years ended December 31, 1928, was as follows:

combined net income, as shown above, averaged \$483,052 per annum, or approximately 2% times the maximum annual interest requirement on the Series A bonds.

Certain lead companies in the territories served by the company contemplate the substitution of purchased electric ower for power heretofore generated in coal-burning plants. Messrs. Coverdale & Colpitts, consulting engineers, their report on the operations of the company, estimate that the decline in revenue from coal traffic resulting on such substitution will be, in large part, offset by increasing revenues from traffic other than coal, by operating conomies, and by advantages which should accrue to the company as a result of the agreement, above referred to, order which Missouri Pacific Railroad Company is to acquire control.

The leguence of these bonds has been authorized by the Interstate Cor We offer these bonds for delivery if, when and as issued and accepted by us, subject to the approval of legal proceedings by cases set. It is expected that delivery will be made on or about May 24, 1929, in the form of imporary bonds of the company, or interior receipts of Dillon, Read of Co.

Mr. Charles Eisler, President of the Corporation, summarises his letter to the Bankers as follows:

HISTORY AND BUSINESS: The Eisler Electric Corporation has been incorporated under the laws of Delaware to acquire certain business and assets, including properties, patent rights, trade marks and good will of the Eisler Engineering Co., Inc., which was formed in 1925. The Corporation through its ownership of valuable patents is in an unusually favorable position in that it supplies the equipment for manufacture as well as component parts to a number of the most rapidly growing industries in the world. The Eisler Electric Corporation controls important patents and supplies equipment and essential parts for the manufacture of Radio Tubes, Television Tubes, Neon Lights, Talking Motion Picture Tubes, Incandescent Lamps, Ultra Violet Ray Lamps, X-Ray Lamps, etc.

The Corporation's principal business is the manufacture of equipment and essential parts used in the production of Radio Tubes. Practically every independent Radio Tube Company is dependent upon this Corporation for the equipment and parts used in the manufacture of Radio Tubes.

The Eisler Electric Corporation at present controls a number of the most important patents under which Radio Tubes are manufactured and supplies over 90% of the equipment used by the independent Radio Tube companies, among which are included:

Arcturus Radio Tube Co.
Atwater Kent Mfg. Co.
Cable Radio Tube Corp.
Ce Co Mfg. Co., Inc.
Cutler-Hammer Co., Inc.
DeForest Radio Co.
Gold Seal Electrical Co.
Grigaby-Grunow Co.
Kellogg Switchboard and Supply Co.

Ken Rad. Tube & Lamp Corp.
Magnavox Co.

Air Reduction Sales Co. Paragon Electric Co.
Bellows Claude Neon Co.
Claude Neon Lights, Inc.
Claude Neon Macy Co.
Hygrade Lamp Co.
Rainbow Luminous
Products. Inc. Products, Inc. E. R. Squibb & Sons

The Corporation also numbers among its customers many of the leading manufacturers of Radio Tubes in England, Germany, France, Italy, Russia, Japan, China and South America.

GROWTH AND EARNINGS: The business was incorporated in 1925 by the present management and from its inception has operated successfully, but during the first several years was principally engaged in the development and perfection of its present products. It was not until 1928 that the Corporation began to reflect the results of this development period.

In 1928 net earnings after all charges including depreciation and Federal taxes applicable to the Common Stock were \$200,498, a majority of which was resultant from operations during the second six months' operation.

During the first quarter ended March 31, 1929 net earnings were \$232,176, which was in excess of the entire year of 1928, and which is at the annual rate of \$928,000 per year or \$4.64 per share on the outstanding commonstock.

As early as January 1, 1929 the Corporation had on hand for the present year definits orders of almost twice the entire business of 1928.

INDUSTRY: It is estimated that the production of Radio Tubes by the Independent Radio Tube manufacturers in 1929 will more than double the entire production of 1928. The Eisler Electric Corporation supplying practically all of the independent manufacturers with the additional equipment necessary to this increased production should show a substantial increase in business and net profits during 1929. It is likewise a fact that the other industries which the Corporation is supplying such as Television, Neon Light, Talking Motion Picture, Ultra Violet Ray, and X-Ray, are showing a phenomenal increase and it is believed that additional business from these sources will be at least as great as the Radio Tube industry.

PLANTS: The plants of the Company are located at Newark, N. J. They are well equipped with modern machinery and have ample capacity for expansion. Since 1922 the volume of business has increased so rapidly
that it has been necessary to erect a new plant practically every year.

MANAGEMENT: The management will remain in the hands of the same men who have been responsible for the
Company's present dominant position. Control of operations will remain in the hands of the,
President, Mr. Charles Eisler, formerly Chief Engineer with the Westinghouse Lamp Company. A majority of the

Cities Service Reports the best year in its history

Security-owners now total 450,000

The Annual Report of Cities Service Company, just issued, shows 1928 to have been the most successful year in the Company's history. Large increases were made in assets, gross and net earnings, and the number of the organization's security holders,

who now aggregate more than 450,000. Excess of current assets over current liabilities increased 26.75%, from \$52, 932,000 to \$67,094,-

Consolidated net earnings of the Com-The number of owners of exceeded \$64,000,000, exceeded \$64,000,000, equal to 9.34% on the total capitalization and funded debt. Total confunded debt. Total confunded public pany and its subsidiaries

solidated assets of this nation-wide public service organization increased during the year from over \$809,000,000 to more than \$913,000,000.

The Annual Report shows that in 1928 Cities Service petroleum subsidiaries produced about 20,000,000 barrels of oil, a daily average of over 54,000 barrels. Gasolene, oil, and other petroleum products were marketed through its own distributing system in 4,000 communities. Public utility subsidiaries sold over 93,600,000,000 cubic feet of natural and manufactured gas and 1,421,000,000 kilowatt hours of electrical energy.

Stumped

Contractors had been using a certain manufacturer's road machinery to pull stumps, logs and other things by hitching a chain around the rear axle. Under this severe strain the axles broke.

The manufacturer wanted his machinery to stand up even under such abuse, but larger axles were impractical because of design. So he asked for an Interstate Metallurgist to help him solve his problem.

This expert went over the situation carefully and recommended a change from carbon steel to a certain Interstate heattreated Alloy Steel. Adequate strength was secured without necessitating change of design. The axles stood the strain.

Let an Interstate expert study your steel problem.

Mistake-Mistakethere is only one RED CROWN ETHYL

IT is the gasoline that "knocks out that knock"—makes your car eager to get away—hungry for hills—and powerful in hard going.

There are a number of ethyl gasolines on the market but there is only one Red Crown Ethyl. It is made by combining proved, dependable Red Crown gasoline and Ethyl Brand Anti-knock Compound.

Red Crown Ethyl is sweet, clean and fast. All gums, sulphur compounds and other matter which might cause you endless trouble have been eliminated.

To rid gasoline of these harmful agents is expensive but it must be done. Their presence means corroded wrist pins and driving rods, etched cylinders and faulty pistons which call for expensive repairs.

You can buy cheap gasoline but can you afford to use it?

You'lt never know what your car can do until you use Red Crown Ethyl. You can get it anywhere. It is sold at as low a price as you can afford to pay for an Ethyl gasoline.

last hurried quarter of an hour had been so busy. A glow, a blaze, a slorful carnival effect had transformed out of necognition the Harley room, usually so sedate in its heavy walnut suite, dark walls, and school groups. All was seen as if through a rainbow-lighted storm because, from the room's central electric light (garlanded with grell-tollage usually sold for Christmas decorations) the two boys had hunging rain of paper serpentines in orange, yellow, purple, rose. Some d loose, some were fixed to pictur, wires and were strung like Maybons across and across the room, or like those gay paper streamers at the outward bound liner to the quay the moment before she sails, so of colored air balloons those boys had arranged in front of each wall lights, and although the afternoon sun was streaming through windows full into the room, all the lights had been turned on. They with Russian ballet brilliance through those bubble balls of orange, table, festooning backs of chairs.

If the white tablecloth was scattered a confetti litter of garishly tinted heaped pyramids of flamingo—pink cocoanut ics. There were mounds rick strawberries, cherries, colored cakes, on which were stuck by flags. At the further end of the table, four of those blatant wool cupids which may be won as prizes at fair ground shooting galleries t hurried quarter of an hour had been so busy. A glow, a blaze, a

"HAPPY DAYS!"

mmy!" piped in batlike treble the eldest of the Muirhead wenches, upward leap that sent her frill skirts fluttering to her neck above in trunks and Cupid thighs. "Mummy, doesn't the table 'n every-

over-ly?"

I, it does rather," agreed Percival Arthur, and smirked with pride reckled face. "John and I went and got all these from Woolworth's, some marvelous efforts; do you know, you can get about thirty-two se green things for one-and-eight?" He assumed the host, shep-

in lies the tale of "The Quitter." He assumed the host, shepting the guests who stood, blinking and subdued by his first essay in interest and loves him afterwards, the story of his life.

In the story of his l

beliewed the gramophone, "You're Running Wild!" old man, take that thing off now, won't you?" suggeste

Ladies!" bellowed the gramophone, "You're Running Wild."
I say, old man, take that thing off now, won't you?" suggested win an ultra-restrained voice.
I don't mind which," proclaimed Percival Arthur offnandedly, but redshiftly under his freckles with the complacency of the disputed over Down plumped Mavis Muirhead, wriggling herself into comfort on the test to her cousin. "Aunt Ida there? Lady Mellon next to Uncle Rex." Joy wants him?"
Heaven forbid!" ejaculated Joy with a little reckless laugh. Percival regreed, "Well, as you'll have him there forever soon, you'd better he chance of getting away from him while you can. I'll move these is so that he can look at you, if you like. (This posh spread is meant if you, you know.) Doesn't everybody like the bouquets? Crimson are Joy's favorite flowers. Clash rather well together too, these colors" mage marigolds and brightest pink sweet peas.) "We wanted rather polors, to be cheerful!—but ought it to have been all white flowers for gagement party, or is that only for weddings and christenings and is and things?"

I only hoped that she did not join all too merrily in the grown-up for that rose about the gaudy tea table. As she went through what that rose about the gaudy tea table. As she went through what is and though what the cups, spirit lamp and hot water," insked God that her poise held out so well. Up to now not one of these would have imagined that she was anything but a conventionally gaged girl; with no more emotion about her than would be deemed prize in a typically nice girl who had been "wooed and won" and that thing by dear Dr. Travers. So far she had not made a fault, she stulated herself... Too soon. Touch wood, touch wood!

Honeymoon?"

8000

Joy heard herself give a tiny gasp as though she had been struck over heart by this inquiry. It came from Lady Meldon, that large and deafish who was one of Dr. Travers' most appreciative patients. (Percival ur had hurriedly explained the day before, "Had to ask her to my party the hor nephew was so decent about taking me to Brooklands in the at engaged couples through her lorgnette? I know you won't, so at engaged couples through her lorgnette? I know you won't, so L') Even as Percival Arthur had foreseen, the lady was staring at Joy saw only Geoffrey's face alight with tender mischief. She seemed the same goos up in electric lights with that Edwardian lorgnette. Joy did not mind that, Joy did not seemed of the seemed of the same goos up to be gorgeously happy?" Over, all that. Here, at a ren't we going to be gorgeously happy?" Over, all that. Here, at any Geoffrey's voice saying, "Honeymoon in the Italian Alpa! On the seement party Joy felt like a condemned prisoner in a dungeon deafied and newly cut chocolate cake, a dungeon shat smelled of sweet and newly cut chocolate cake, a dungeon fhat smelled of sweet and newly cut chocolate cake, a dungeon fhat smelled of sweet and newly cut chocolate cake, a dungeon fhat smelled of sweet and newly cut chocolate cake, a dungeon from the bear whether shows the same and dear Dr. Travers intended to spend the honeymoon?

"There isn't going to be any honeymoon!"

Unnaturally loud it rang through the room! Inevitably every head from the proof of the tea table could sink and the transport of his daughters turned towards Joy. Fast Muirhead's to the youngest of his daughters turned towards Joy. Fast Muirhead's to the youngest of his daughters turned towards Joy. The picture is well photographed and the incidental players do all they need to do as well as they need to do it. The dialogue, by the Hattons, is fafr.

BEG YOUR PARDON!

Seek \$10,000,000 for Boy Scouts, Pensions for Ageing Leaders

New York, May 13.—A \$10,000,000 endowment fund for the Boy Scouts of America was unanimously authorized at the annual meeting of the national council of that organization today. The money is to be raised in a general campaign throughout the country.

According to Mortimer L. Schiff, chairman of the finance committee of the national executive board, presented driving your own car? the matter to the council. In conjun tion with the new finance plan that group therefore adopted an extended program for work in the next five years.

The \$10,090,000 fund would be used

The \$10,090,000 fund would be used in part to meet new capital expenditures required of the organization—some \$4,000,000—faculating a retirement fund for prefessional "scout leaders," for working capital for various commercial activities, such as the publication of books and magazines, and also \$500,000 for a scout leaders' training school.

The income from the remainder of the fund would be used for any approved new projects.

On, the Rialto's silent screen this week is rather an interesting program picture. The acting rather than the story makes it so.

The principals in the cast are Dorothy Revier, who does better work than she has in a long time; Ben Lyon, who has matured greatly during the year he has more or less been missing from the screen, and Fred Kohler who, as usual, has a dirty role that he plays dirtily, who runs a cafe and races horses. One of his entries is reported as unfit to run in a coming event. Nobody knows what's the matter with the poay nor what to do for her. Up lounges an unkempt stable boy and advises a shot of digitalis. The shot does the work.

Who is this stable boy? Ah—there in lies the tale of. "The Quitter." He bettells buffy's sweetheart, who scorns in the story of his life.

Who is this stable boy? Ah—there in lies the tale of. "The Quitter." He bettells buffy's sweetheart, who scorns and singer [she sings better than she dances I trust] and hers for him, bring strange changes.

The income from the remainder of the fund would be used for any approved new projects.

The indome from the remainder of the fund would be used for any approved new projects.

The fund would be used for any approved new projects.

Freent projects include greater development of scout work among farm boys, methods to make scout work anong farm boys of aking it or part of the income from the form and remained for the fund work in and year of the fund or part of the income from the few scout work anong farm boys

(Picture on back page.)
A fair day and thousands of Chicago and suburban shoppers conspired yesterday to give a helping hand to

yesterday to give a helping hand to needy grandfathers and grandmothers. Small yellow shields fluttered from coat lapels and women's purse handles as cheerful givers slid dimes and dollars in the tag day receptacles held by hundreds of women.

The money, during the coming year, will help defray the expenses of the charitable institutions for the old and infirm supported by the Chicago Federation of Aged and Adult Charities. Loop stage stars offered their services in selling tags.

The Inquiring Reporter Every Day He Asks Five Persons, Picked at Random,

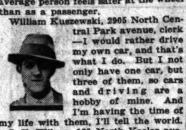

Question.

The Tribune will pay \$5 for each question accepted for the Inquiring Reporter to sak. Send name and address with your question to "Inquiring Reporter, Chicago Tribune. For today's question Oliver Smith, 2335 Walnut street, was awarded \$5.

The Question. Would you employ a chauffeur it you could afford it, or do you prefer

The Answers.
Herman D. Mielke, 2511 North

J. E. Wilson, 120 North Keeler ave-nue, attorney—I prefer to drive my own car—. I suppose because of the thrill. Being a full grown man, I enjoy being master of the car. There's power be-hind that modern loco-motive machinery, and the skill of driving requires a diffe line of thinking and skill than that called for in an attorney's profession.

and crowded blocks to the Fox river valley haven, are making a special effort this year to see that not only more families may be awarded camp vacations, but that they may be more comfortable while there. The Tribune Algonquin fund will be begging most of the summer—begging for folks to help by giving amateur benefits, freewill gifts, and the necessities needed in the buildings and around the camp.

Last Sunday the prospects for the camp brightened considerably with the camp brightened considerably with the camp brightened considerably with the announcement of a \$1,000 gift from a north side woman, who every year thinks of Camp Algonquin vacations for other folks, before she thinks of her own. With her generous aid, that which is anticipated from the yearly contributors, and the new friends this year, surely much happiness can be brought to Camp Algonquin this summer.

Harry R. Currie, Mrs. James M. Sessions, Mrs. Adele S. Martin, Mrs. Arthur E. Dyer Jr., and Mrs. Harry C. Hower, divisional chairmen.

SEEK \$500,000 AS FUND FOR HEART DISEASE HOSPITAL

A \$500,000 campaign for funds to build and maintain the La Rabida Jackson Park sanitarium, a charity hospital for the treatment of heart disease in children, was launched yesterday at a meeting of the campaign committee at the Union League club. The construction on land given by the south park board will start on June 17, according to the plan announced yesterday by George W. Dixon, general chariman.

yesterday by George W. Dixon, general chariman.

About one-half the sum sought will be used for the building. It will be of Spanish mission architecture in a modernized replica of the old La Babida building of the Chicago worthwhsse.

Last night inquiry concerning the comforts and benefits of Camp Algonquin came to The Tribune in behalf of that little girl. A family friend begged that the child, undernourished, run down, and under weight, be al-

run down, and under weight, be allowed to spend the summer in camp where she might regain her strength under the direction of the dictician and nurses.

Whether she will be among the worthiest of the hundreds who apply to the United Charities remains to be seen as every year that organization sends to that camp less than it would like to, because there never are enough funds.

All who cooperate in sending mothers and crowded blocks to the Fox river valley haven, are making a special of the association's board of trade, proposed a resolution calling suggested by the campaign committee. "Fully 30 per cent of these could be benefited in such an institution. Chronic invalidism so common in cardiac disorders makes useless as many lives as are extinguished by ill hearts. Medical authorities are agreed that the most important factor in chronic cardiac disease in childhood is the care and attention the patient can receive."

Other members of the account the account of the last year.

Mr. Brentane was followed by L. Magel of Baltimore, chairman of the campaign committee. "Fully 30 per cent of these could be benefited in such an institution. Chronic invalidism so common in cardiac disorders makes useless as many lives as are extinguished by ill hearts. Medical authorities are agreed that the most important factor in chronic cardiac disease in childhood is the care and attention the patient can receive."

you prefer them.

Wax crayons, big marking pencils, repencils with soft leads are tire coper things for young children to raw with because they lend themelves to big strokes. Children love of graw by laying these big sheets of aper on the floor and kneeling or ling on their stomachs in front of hem.

Their blocks should be large and ithout curves. The square prism is small the best shape to work with, as these blocks are often hard to st and expensive, a good plan is to two a carpenter saw you up accutely a piece of, for example, two by ur lumber into 6 or 8 inch lengths, are sandpaper these down, yourself, you don't like the way they look hen they get dirty you can wash em or paint them all one color—soft dark green is good. With such books children can make wonderful ings—long freight trains, and buildings—long freight trains.

PATTERNS BY CLOTILDE

CHILD'S DRESS.

This dear little dress is cut in two pieces, these being cut in from the armhole edges, front and back, to form a yoke, the lower edge of each slash being gathered and seamed to the upper part. The skirt is treated in the same manner, being cut in at either side of the waistline. Chambray, gingham and cotton broadcloth

yards of 40 inch material. The transfer design, No. 730, comes in blue and yellow and costs 15 cents extra.

BY SALLY JOY BROWN.

A Friend in Need

'It's nice to have you here, Ruth"

Charming-yet unwelcome ... can it be "B.O."?

Tom enjoy Alice Cole's bridge," Ruth I was thinking some weeks later. "But she's never asked me again.
"Same old story—people like me at first—but quickly lose interest."
Then Ruth began to suspect the trouble. Read what she learned about "BO"

"I'd never believe a person could be guilty of body odor — and not knew is—except that it happened to me.

"B. O.' fools us like that, my doctor explained, because we become insensitive to familiar odors. But even on cool days the pores give off as much as a quart of odor-causing waste,

"Now, thanks to Lifebuoy, I never worry about offending. Its wonderful

OFFICIAL WEATHER FORECAST

HAROLD TEEN—HE HAS HIS WEAK MOMENTS!

WHY! Krause's Permanents Stay Permanent

THE success of a permanent wave depends appendix upon the skill and care of the operator.

A perfect permanent requires a thoroughly trained operator—an artist. Such are our own operators. They have been with us four or five years. Proof of their superior work is the fact that ninety-five per cent of our business is either repeat or recommended. Mastro-L Wave, \$7
